

FINN ALL PROINNTS

- Top-down, large scope, planning

- Fast and inexpensive experiments

• A humble approach

• Shoot for excellence

# FINAL POINTS

- ~~Top down, large scope, planning~~
- Fast and inexpensive experiments
- A humble approach
- Shoot for excellence

# FUTURE DISCUSSIONS

- Working with legacy code
- Software design
- Microservice deployments
- Analytics and monitoring
- Asynchronous programming
- Effective testing
- Domain-driven design
- Monolith extraction techniques
- Lean Enterprise
- "That Darn Database"
