

# OpenAPI Specification

---

The World Standard for RESTful APIs

The OpenAPI Specification was donated to the Linux Foundation under the OpenAPI Initiative in 2015. The specification creates a RESTful interface for easily developing and consuming an API by effectively mapping all the resources and operations associated with it.

OAS 2.0

OAS 3.0

Version	Date	Notes
2.0	2014-09-08	Release of Swagger 2.0
