TIPS & TRICKS

- carton exec -- is boring to type. Options:

  $ carton exec -- $SHELL -l

  $ export PERL5LIB=local/lib/perl5:$PERL5LIB

  $ alias ce='carton exec --'

TIPS & TRICKS

- Check your `cpanfile` and `cpanfile.snapshot` into your source control

  - Now everyone on your project is using the module versions

  - This may cause a little noise from time to time
